

Smart home. *Peace of mind.*

Lights, heating, air conditioning and sensors in one simple app. From first light to “Good night”, your whole home is in your hand, wherever you are.

AN ORDINARY DAY

6:30	Warm before you get up	2
7:45	“Leaving” in a single tap	2
11:20	Away, yet in control	3
22:30	“Good night”, house asleep	3
Weekend	Holiday homes, lets and plans	4

Secure

No passwords. Only the people you allow can get in.

Fast

Open the app and your home is right there.

Reliable

Lights and heating keep working when the internet is down.

Worry-free

If something isn't right, you'll be the first to know.

Your home is ready before you are.

6:30

WAKING UP

Warm before you get up

Lunet can warm the bathroom and living room before you wake. Your installer sets it up once, and every morning you get up to a warm home.

7:10

COFFEE

The whole house on one screen

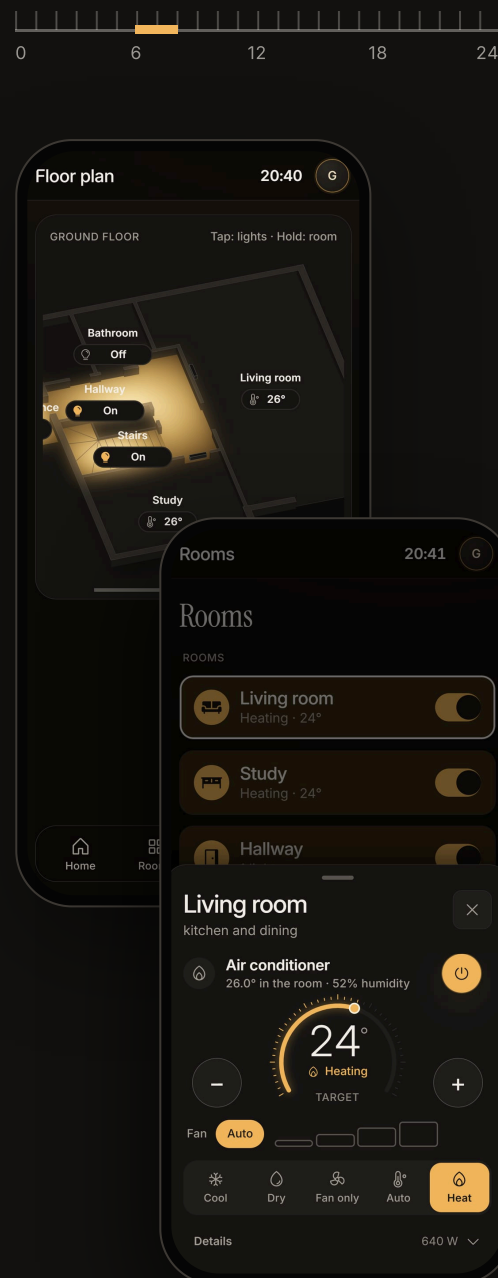

A live floor plan shows where the lights are on and where it's warm. Tap a room to adjust the lights or air conditioning. Wall switches work just as before.

7:45

HEADING OUT

"Leaving" in a single tap

Lights and air conditioning switch off while you calmly lock the door. Everyone in the household has their own access to the app.

BEFORE THE FIRST MORNING

No rewiring needed

Lunet fits into the home you already have, without breaking into walls.

01

Do I need new electrical wiring?

No. Small modules fit behind your existing switches, with no damage to walls. The switches work just as before.

02

How is Lunet different from KNX?

It offers similar comfort without new wiring, at a fraction of the price. It can even be fitted in a home you already live in.

03

Can I keep the devices I already have?

Yes. We bring your existing air conditioners, thermostats and sensors together in one app.

11:20

OUT AND ABOUT

You're away. Your home is in hand.

If a sensor detects water on the floor, there's a risk of freezing or the house goes offline, you're alerted straight away, on your phone and by e-mail.

And if the internet goes down, lights and heating at home keep working.

LUNET · FAMILY HOME

now

Water leak in the bathroom

Water under the washing machine.

LUNET · HOLIDAY HOME

earlier

Risk of freezing

The basement is getting colder.

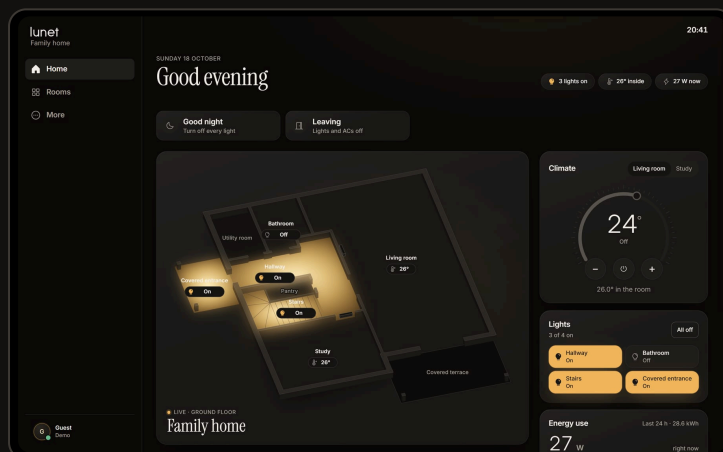

LUNET · FAMILY HOME

yesterday

Home is offline

Check the power or internet.

18:30

BACK HOME

One home, every screen

Everyone in the household has their own access. The owner and residents control everything; guests, only the devices.

iPhone

Android

Computer

Wall panel

22:30

GOOD NIGHT

One tap, and the house sleeps

"Good night" switches off every light in the house. No more going from room to room to check what's been left on.

And while you sleep, your home stays yours alone.

**No passwords**

Sign in with a code sent by e-mail, or with your face or fingerprint.

**Only your home**

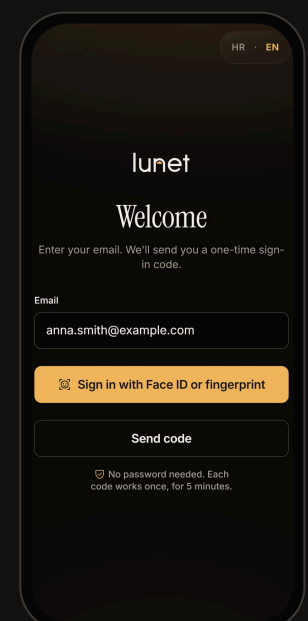

Every home is kept completely separate from the rest.

**You decide who comes in**

Remove a household member and their access ends at once.

**Your data stays in the EU**

Your home network stays closed to the outside world.

A plan that fits *your home.*

Saturday, 10:00

Guests arrive this afternoon. The rooms are already warm, and the lights are on to welcome them.

Every plan includes the app for the whole household. The difference is how much Lunet keeps an eye on for you.

FOR EVERY HOME

Lite

Your whole home in one app.

RECOMMENDED

PEACE OF MIND

Care

Looked after, even when you're away.

FOR HOSTS

Rental

Apartments and holiday homes.

HOME CONTROL

Whole home in the app, at home and away	✓	✓	✓
Floor plan, quick actions and scenes	✓	✓	✓
Household members with their own access	✓	✓	✓
Devices work without the internet	✓	✓	✓

MONITORING AND SUPPORT

Continuous home monitoring	—	✓	✓
Alerts: water leaks, freezing, lost connection	—	✓	✓
Energy use reports	—	✓	✓
Automatic updates	—	✓	✓
Direct support from your installer	—	✓	✓

GUESTS AND PROPERTIES

Guest access by QR code	—	—	✓
Guests control only their own room	—	—	✓
All properties in one view	—	—	✓
Guest welcome and "empty" mode after stays	—	—	✓

You can change your plan whenever you like. Contact us for a quote.

NEXT STEP

Book a presentation.

We'll show you how Lunet would look in your home.
